Dots record owned pieces. Full scope follows each P reference.

PRIMITIVES / REUSABLE EFFECTS

Practice hex: empty untrained / dot proficient / filled expertise.

P06 / Spark-Shedding Skin · Strike one's mineral skin against hard stone or metal to produce a small spark. Fuel and air are still needed to ignite anything; this grants no fire resistance.

P08 / Driving Strike · Deliver a direct blow using an attack already available to the character. The chosen weapon or capability sets the damage, range, and target; this permission grants no extra attack or damage.

P05 / Vitality Core Augment I · Add +5 to Max Vitality.

P07 / Precise Vector Alignment (Global Attack Modifier) · Add +1 to Attack Rolls.

ONGOING / ENDING

COMPOSITIONS / REUSABLE EFFECTS

C01 / Tinder Spark
Source: Character.
Owned references: P06.
Produce a spark against hard material to ignite suitable tinder. Wet fuel or no air prevents ignition.

C02 / Driving Blow
Source: Character + I01 / Ledgerguard Saber.
Owned references: P08.
Make a direct attack using the character's purchased attack and output. The weapon or capability determines target and damage; no extra action is granted.

C03 / Third Beat
Source: I01 / Ledgerguard Saber.
Owned references: P08, E01.
Track two authored successful qualifying actions in sequence, then spend the record on the described ordinary follow-up. That follow-up consumes its normal action and does not add output automatically.

C04 / Plate Exchange
Source: I02 / Patchplate Vest.
Owned references: E02.
With spare plate material and several minutes, replace one damaged outer plate. The plate's fictional protection is stated; no automatic DC or Vitality restoration occurs.

E01 / Prepared Rhythm Record
Record the two authored qualifying successful actions in order. Clear on an intervening qualifying failure or when spent once on the follow-up. This supplies neither an automatic counter nor an extra action.

E02 / Temporary Patch
One small ordinary object functions for a stated task after being patched with suitable material. It ends when strained beyond its limit or replaced by proper repair.

EQUIPPED SLOTS / max 2 / 6 LOAD / capacity 2 / 65

ITEM RULES / SOURCE / ENDING

I01 / Ledgerguard Saber

Quantity 1; Load 1; equipped slots 1; Item BU 12; equipped.
A plain guard blade with a sealed compartment for a witnessed pact. Its seal records the document's handling and does not compel anyone to honor it.
Track its authored two-action rhythm manually before spending the record on an ordinary follow-up. Resolve one ordinary purchased attack, roll the attached output die, and change target Vitality manually. The item's physical form determines the described damage type at the table.
I01.P01 / Witnessed Mark: Make a visible mark recording words voluntarily agreed in the witness's presence. It preserves the record but compels nobody and does not detect lies.
I01.P02 / Minor Die Block: Unlock [1d4] damage or healing output.
Use a d4 for the baseline damage or healing output available without added BU cost. The parent capability still determines the action, target, source, and delivery rules.
I01.P03 / Touch Range: Set maximum range to Touch.
The capability can affect the user, something they physically contact, or a target within ordinary melee reach. It cannot cross open distance without a higher range primitive.

I02 / Patchplate Vest

Quantity 1; Load 1; equipped slots 1; Item BU 8; equipped.
A vest of removable outer plates. Exchange a damaged plate with compatible spares during a repair interval; no additional DC is implied.

ITEM STATE / QUANTITIES / REPAIRS

Current equipment totals are printed on writable lines; update them as gear changes.

Tarn Emberpost

PRIMITIVES / FULL AUTHORED SCOPE

P01 / Domain of Motion
Grant [motion] domain access.
This Tier I domain covers the speed, direction, momentum, and rest state of directly observed creatures and objects. It grants vocabulary for building capabilities about this subject; the chosen verb tier, range, structure, targeting, duration, and other primitives determine the specific action and limits.

P02 / Verb Access Tier I
Grant [Tier I] verb access.
Unlock the complete Tier I verb vocabulary for basic physical and perceptual interaction: move, strike, push, pull, lift, drop, interact, sense, observe, touch, grab, throw, break, hold, release, dodge, crawl, run, and similarly direct actions. Buying this primitive grants the whole tier; it is not the purchase of a single verb.

P03 / Touch Range
Set maximum range to Touch.
The capability can affect the user, something they physically contact, or a target within ordinary melee reach. It cannot cross open distance without a higher range primitive.

P04 / Standard Die Block (1d6)
Add +1d6 to Action.Damage.
Max 6 units per baseline capability.

P05 / Vitality Core Augment I
Flat +5 Max Vitality. Injects a permanent, structural increase to the character's base health pool. Stacks cumulatively.

P07 / Precise Vector Alignment (Global Attack Modifier)
Add 1 to the character's Attack Rolls while this primitive is active; other action rolls are unaffected. This currently overlaps Attack Bonus Increment; choose one as the starter-library parent before expanding either family.

NOTES / AGREED CHANGES / SOURCE

Tarn Emberpost

CONCEPT / STORY / ADVANCEMENT

Character / concept
Tarn Emberpost

H01 / Lineage / Hearthspark
Hearthsparks carry warm flecks of mineral under their skin. A struck knuckle can spark prepared tinder; a stubborn, compact body gives them a little extra endurance. Their spark needs fuel and air and grants no protection from fire.

H02 / Manifest / Steady Blade
Your emerging build centers on one controlled, driving blow and reliable aim. Choose the weapon and style that express it. Attack modifiers appear on your sheet; the blow's fictional outcome follows the purchased capability and the resolved action.

Origin
A mineral-skinned courier learning one dependable melee strike. The package buys Motion, Tier I, touch delivery and d6 output. Fire sparks are a contextual permission, not fire immunity.

Motivation
Find a place for these talents while protecting the people who rely on them.

Ties
Traveling companions, former teachers, and a home worth returning to.

Flaw
A familiar duty can become harder to set aside than a dangerous road.

Build account / advancement
Level / Budget I / 25 BU.
Character BU spent 24; 1 available. Separate Item BU 20.
Agreed bonus BU: 0.
Reusing owned references is not another acquisition. Record agreed changes and their source.
